WORK EXPERIENCE

Founder & Full-Stack Lead — *Building Worthfinding*

Udaipur, India Jan 2026 – Present

Architected high-performance digital flagships using Next.js Server Components and Tailwind CSS, achieving sub-second Largest Contentful Paint (LCP) and 98+ Google Lighthouse scores.

Engineered dynamic acquisition funnels and custom JSON-LD schemas, driving top-3 search rankings and a 40% increase in organic client inquiries for regional hospitality and enterprise brands.

Implemented automated CI/CD deployment pipelines on Vercel with zero-downtime production rollouts.

Full Stack Developer Intern — *DMV CoreTech*

Remote, India May 2026 – Present

Developed and scaled full-stack web applications and modular REST APIs using MERN (MongoDB, Express, React, Node.js), reducing API response times by 35%.

Designed role-based access control (RBAC) and JWT authentication mechanisms, securing sensitive enterprise user records across multi-tenant endpoints.

Optimized MongoDB queries with compound indexing and aggregation pipelines, reducing database load during peak traffic by 25%.

Resolved 25+ critical production bugs and collaborated in cross-functional agile sprints to deliver sprint goals ahead of schedule.

Open Source Contributor — *GirlScript Summer of Code (GSSoC'26)*

Remote, India May 2026 – Present

Selected among thousands of applicants to contribute to production-grade open-source developer tools and web platforms.

Authored modular TypeScript components, wrote unit tests, and resolved complex issues with 10+ pull requests merged.

PROJECTS

RepoSage | Next.js, TypeScript, OpenAI API, Vector Search, Tailwind CSS

July 2026

Built an AI-driven developer onboarding platform that indexes open-source GitHub repositories using vector embeddings and guides new contributors through codebases in under 2 minutes.

Achieved 22+ GitHub forks and active open-source adoption; engineered context-aware PR walkthrough engine with live streaming explanations.

DevPort | Next.js, TypeScript, Tailwind CSS, Vercel API

July 2026

Engineered an automated developer portfolio generator importing GitHub repositories to deploy recruiter-focused bento websites in under 60 seconds with 6 dynamic themes.

Built real-time profile analytics, dynamic OG image generation, and single-click automated Vercel deployment.

openenv | Node.js, Docker, JavaScript, GitHub Actions, CI/CD

June 2026

Created an open registry of full-stack production starter kits pre-configured with databases (PostgreSQL/MongoDB), containerized environments (Docker), and automated CI/CD validation.

Automated environment testing via GitHub Actions, reducing developer onboarding and setup time from 45 minutes to a single CLI command.

Developed a centralized academic hub for Sir Padampat Singhanian University (SPSU) students to access faculty-verified notes, syllabus roadmaps, and announcements.
Maintained 99.9% uptime and sub-100ms client-side page transitions via Next.js App Router for active student cohorts.

LEADERSHIP & EXTRACURRICULARS

Campus Mantri (Campus Ambassador), GeeksforGeeks SPSU: Spearheaded university coding culture, organizing coding contests, DSA study cohorts, and technical workshops impacting 200+ students.
Organizer, WORTH IT Innovation Challenge: Founded a 2-week builder sprint under Worthfinding Studio providing 9 direct internships across engineering, design, and business tracks.
Competitive Debating Champion (Sainik School): Awarded House Debate Champion (Best Debater) and secured 2nd Place in North Zone Inter-School Debate Championship out of 20+ participating institutions.

ACHIEVEMENTS & CERTIFICATIONS

NPTEL IIT Kharagpur: Fundamentals of Digital Marketing — **95% Score, Elite + Gold Topper (Top 2% Nationwide).**
freeCodeCamp: Scientific Computing with Python Certification (Verification ID: fcc-339c2573-aad6-4d57-pyv9).
