Rewari, Haryana / Udaipur, Rajasthan, India

EDUCATION

Sir Padampat Singhania University (SPSU)

Udaipur, Rajasthan, India

Bachelor of Technology in Computer Science & Engineering

2025 – 2028

Specialization: Full Stack Web Development

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming (C++), Database Management Systems (DBMS), Operating Systems, Computer Networks, Full Stack Web Architecture, System Design, Cloud Computing.

TECHNICAL SKILLS & CORE COMPETENCIES

Languages: TypeScript, JavaScript (ES6+), Python, C++, SQL, HTML5, CSS3

Frontend: React.js, Next.js (App Router, Server Components, SSR/SSG), Tailwind CSS, Redux Toolkit, Framer Motion, Vite

Backend & APIs: Node.js, Express.js, FastAPI, RESTful APIs, WebSockets, tRPC, Microservices Architecture

Databases & Cloud: PostgreSQL, MongoDB, Prisma ORM, Supabase, Redis, Docker, Vercel, AWS (EC2/S3), Firebase

Architecture & Engineering: System Design, Scalable Web Architecture, Database Indexing & Query Optimization, Caching Strategies (Redis), CI/CD Automation, Test-Driven Development (TDD)

DevOps & Tooling: Git, GitHub Actions, Postman, Linux CLI, Docker Compose, RAG & Vector Search, OpenAI API

Soft Skills & Professional Competencies: Agile/Scrum Sprint Execution, Cross-Functional Team Collaboration, Technical Leadership & Mentorship, Peer Code Reviews, Technical Writing & Documentation, Public Speaking, Root-Cause Problem Solving

WORK EXPERIENCE

Worthfinding

Udaipur, Rajasthan, India

Full Stack Engineer

Jan 2026 – Present

- Architected high-performance digital flagships using Next.js Server Components and Tailwind CSS, achieving sub-second Largest Contentful Paint (LCP) and 98+ Google Lighthouse performance scores.
- Engineered dynamic acquisition funnels and custom JSON-LD schemas, driving top-3 Google search rankings and a 40% increase in organic client inquiries for regional hospitality and enterprise brands.
- Implemented automated CI/CD deployment pipelines on Vercel with zero-downtime production rollouts, optimizing asset delivery, edge caching, and bundle size.
- Spearheaded technical architecture discussions and client roadmap alignment, translating complex business objectives into scalable software solutions.

DMV CoreTech

Remote, India

Full Stack Developer Intern

May 2026 – Present

- Developed and scaled full-stack web applications and modular REST APIs using MERN (MongoDB, Express, React, Node.js), reducing API response times by 35%.
- Designed role-based access control (RBAC) and JWT authentication mechanisms, securing sensitive enterprise user records across multi-tenant endpoints.
- Optimized MongoDB queries with compound indexing and aggregation pipelines, reducing database load during peak traffic by 25%.
- Collaborated in cross-functional agile sprints, conducted rigorous peer code reviews, and resolved 25+ critical production bugs ahead of sprint deadlines.

GeeksforGeeks (SPSU Chapter)

Udaipur, Rajasthan, India

Campus Mantri & Student Technical Lead

June 2026 – Present

- Spearheaded university-wide coding culture, organizing algorithm challenges, DSA cohorts, and technical workshops impacting 200+ students.
- Mentored 50+ junior engineering peers in Data Structures & Algorithms, competitive programming fundamentals, and technical interview readiness.
- Directed collaboration between university administration and national GeeksforGeeks representatives to host high-engagement campus coding events.

Open Source Contributor

Remote, India

Open Source Projects & Developer Ecosystem

May 2026 – Present

- Contributed to production-grade open-source developer tools and web platforms across active GitHub repositories.
- Authored modular TypeScript components, wrote unit tests, and resolved complex repository issues with 10+ pull requests merged.
- Authored technical documentation, bug repros, and PR walkthroughs, collaborating with distributed maintainers across agile workflows.

FEATURED PROJECTS

- RepoSage** | *Next.js, TypeScript, OpenAI API, Vector Search, Tailwind CSS*

July 2026

 - Built an AI-driven developer onboarding platform that indexes open-source GitHub repositories using vector embeddings and guides new contributors through codebases in under 2 minutes.
 - Achieved 22+ GitHub forks and active open-source adoption; engineered context-aware PR walkthrough engine with live streaming explanations.
 - Integrated OpenAI embeddings with vector similarity search to dynamically generate architectural maps and interactive function call graphs.
- DevPort** | *Next.js, TypeScript, Tailwind CSS, Vercel API*

July 2026

 - Engineered an automated developer portfolio generator importing GitHub repositories to deploy recruiter-focused bento websites in under 60 seconds with 6 dynamic themes.
 - Built real-time profile analytics, dynamic Open Graph (OG) image generation, and single-click automated Vercel deployment workflows.
- PlacementOS** | *Next.js, React, TypeScript, Tailwind CSS, PostgreSQL*

May 2026

 - Architected an enterprise campus placement automation platform streamlining hiring drives, company applications, and candidate verification.
 - Built real-time ATS resume compatibility scoring engine and personalized skill-gap roadmaps, accelerating campus student placement readiness.
- openenv** | *Node.js, Docker, JavaScript, GitHub Actions, CI/CD*

June 2026

 - Created an open registry of full-stack production starter kits pre-configured with databases (PostgreSQL/MongoDB), containerized environments (Docker), and automated CI/CD validation.
 - Automated multi-environment testing via GitHub Actions, reducing developer onboarding and setup time from 45 minutes to a single CLI command.
- CampusCore** | *Next.js, TypeScript, Tailwind CSS, Vercel*

August 2026

 - Developed a centralized academic hub for Sir Padampat Singhanian University (SPSU) students to access faculty-verified notes, syllabus roadmaps, and announcements.
 - Maintained 99.9% uptime and sub-100ms client-side page transitions via Next.js App Router for active student cohorts.
- InfluencerIQ** | *Next.js, TypeScript, Node.js, Tailwind CSS, REST APIs*

June 2026

 - Engineered a creator intelligence and campaign matching engine forecasting brand campaign ROI based on audience demographics and engagement credibility.
 - Implemented high-efficiency data aggregation pipelines evaluating social performance metrics across multi-tiered influencer profiles.

TECHNICAL WRITING & COMMUNITY INITIATIVES

- **Technical Blog Author (worthfinding.tech/blog):** Authored published technical deep dives on Next.js Server Components, Full-Stack System Architecture, and Edge Caching, attracting 1,000+ organic reader engagements.
 - **Campus Technical Workshops:** Hosted hands-on developer workshops on modern Git/GitHub workflows, full-stack CI/CD pipelines, and React state management for university engineering students.
- LEADERSHIP & EXTRACURRICULARS**

 - **Organizer, WORTH IT Innovation Challenge:** Founded a 2-week national builder sprint under Worthfinding Studio providing 9 direct engineering, design, and business internships to student innovators.
 - **National Cadet Corps (NCC) Cadet, SPSU Contingent:** Actively completed rigorous military drill, physical endurance, and disaster management training; cultivated command discipline and team leadership.
 - **2nd Position, Inter-University Debate Competition (2026):** Represented Sir Padampat Singhanian University (SPSU) in the university-level parliamentary debate championship, securing runner-up honors.
 - **Competitive Debating Champion (Sainik School):** Awarded House Debate Champion (Best Debater) and secured 2nd Place in North Zone Inter-School Debate Championship out of 20+ participating institutions.

ACHIEVEMENTS & CERTIFICATIONS

- **NPTEL IIT Kharagpur:** Fundamentals of Digital Marketing — **95% Score, Elite + Gold Topper (Top 2% Nationwide).**
- **freeCodeCamp:** Scientific Computing with Python Certification (Verification ID: fcc-339c2573-aad6-4d57-pyv9).
- **Competitive Programming & DSA:** Consistently active problem solver across LeetCode and GeeksforGeeks, solving algorithmic challenges in C++ and Python.
